

QUALITY POLICY

Lamina Technologies SA, a Swiss company based in Yverdon-les-Bains, was established in 2002 to supply state-of-the-art cutting tools to the worldwide market of metal industry.

We strive to provide products and services that consistently meet or exceed the requirements and expectations of our customers and interested parties. We are committed to continuous improvement of Quality Management System giving us a framework to measure and to improve our ability to deliver high quality products.

This policy shall be deployed through:

1. Continual improvement and innovation of our products through **Research and Development**
2. **Standardization of production** processes and **Quality Control** measures in order to achieve performance consistency
3. **Developing and empowering employees**
4. **Continual Improvement** of all our processes and performance in compliance with ISO 9001:2015
5. Evaluating **Customer Satisfaction** and addressing concerns, constant improving of customers experience

Quality is the responsibility of all employees within their respective scope. All Lamina Technologies SA employees must contribute and ensure that Quality is integrated and applied within the entire company.
