Ownership change at Lamina

Lamina Technologies is excited to announce that Triton has become our new majority shareholders. Founded in 1997, Triton is a leading European investment firm predominantly focusing on companies with the potential to create sustainable, long-term value through the changing economic cycles.

It is with confidence that we embark on this new stage in the history of our company. Peder Prahll, Director of the General Partner for Triton funds and Peleg Amir, CEO of Lamina Technologies share a common vision when it comes to the growth strategy of the company and strengthening its position in the international market.

We firmly believe that Triton's support combined with our expertise will enable us to achieve significant growth of our business. The management of Lamina will continue, as always, to serve our customers through technological leadership.

We would like to express our gratitude to our previous shareholders China Everbright and Catalyst Investments. From the very first day they have seen our potential and believed in the values that motivate us. We are grateful for their support over the years and for taking us one step further on our path to expansion and growth.

About Triton

Since its establishment in 1997, Triton has sponsored nine funds, focusing on businesses in the industrial, business services, consumer and health sectors. The Triton funds invest in and support the positive development of medium-sized businesses headquartered in Europe. Triton seeks to contribute to the building of better businesses for the longer term. Triton and its executives wish to be agents of positive change towards sustainable operational improvements and growth. The 42 companies currently in Triton's portfolio have combined sales of around €17,2 billion and around 81,400 employees.

About Lamina

Lamina Technologies is a Swiss manufacturer of carbide cutting tools established in Yverdon-les-Bains in 2002. From our inception, we have been focused on understanding customers' needs and striving to exceed their expectations. We are the global pioneers of the ground-breaking Multi-Mat™ concept that, through innovative technologies, allows cutting tools to work on a multitude of materials. Lamina continues its fast-paced expansion with 7 subsidiaries and representation in over 50 countries.
